

HOPE COMMUNITY CHURCH

LOCATION: Denver, CO

DATE OF COMPLETION: July 2015

PRODUCT REMOVED: Cedar Shakes

PRODUCT INSTALLED: DaVinci Roofscapes Composite Belaforte Shake and Flat Roof Coating

SQUARE FOOTAGE: 20,000 Square Ft.

While working closely with the church's insurance company, Gen 3 Roofing quickly determined that the Hope Community Church roof was in need of more than a small repair. What started out as less than a \$5,000.00 repair, quickly turned in to a nearly \$200,000.00 replacement of 12,000 square feet of cedar shakes and 8,000 square feet of flat roof – paid entirely by the church's insurance company.
